

**INSTITUTE OF PRIMATE RESEARCH (IPR) IN COLLABORATION WITH
INTERNATIONAL PRIMATOLOGY CONGRESS (IPS)**

Pre and Post Congress Training Program at the Institute of Primate Research

Pre Congress Training Duration: 17th August 2018 between 0830 – 1630hrs

Theme: Best Practices in Primate Research and Conservation

Cost: 200 USD catering for transport, Meals and drinks, facilitation and institutional overheads

Max/Min number of participants: 40/25

Trainers: Prof John E Cooper, Maragaret E Cooper, Pam Conneyworth, Alex Pritchard, Peter Fundi, Stan Kivai, and Nancy Moinde

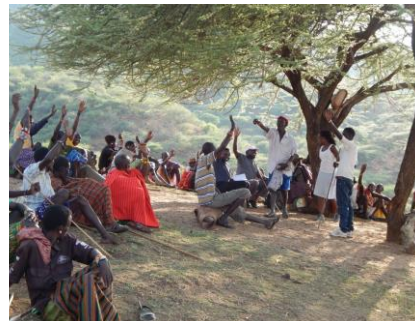

Topics

1. Primate conservation Education and Conflict Resolution

- *Primates translocation strategies:* focusing on the best practices to be adopted in a successful planning and translocation of primates
- *Pest management techniques and conflicts resolution:* Primates are increasingly becoming a major pest and this presentation will focus on techniques being adopted to manage primate pests and mitigate conflicts.
- *Community based conservation as a conflict resolution strategy:* Engagement of local communities in wildlife conservation has proven a success in mitigating human-wildlife conflicts and this presentation will focus on community integration as a means to resolving human- nonhuman primates conflicts.
- Primate legislation and the role of codes of practice

Preparing guereza capture cage

Community outreach at Mathew Ranges

2. Field techniques in primates monitoring and research

- *Field techniques in primate nutrition ecology*: Understanding of nutritional need for a primate species is crucial to its continued management and here we focus on the modern techniques being adopted in understanding nutritional requirements of a species

- *Best practices for data collection by field research assistants*: Research assistants play a vital role in data collection and they require an understanding of how best to collect accurate, consistent and replicable data.

Baboon behavioral Data collection

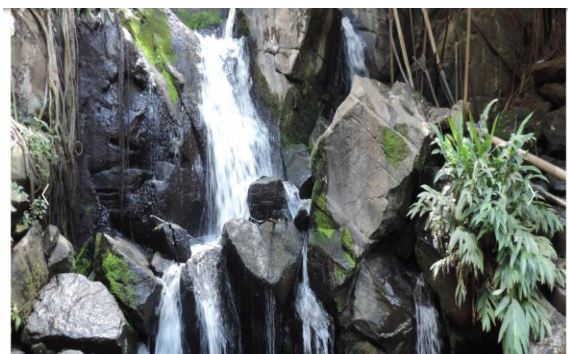

3. Field techniques demonstrations and primates observation in Ololua Forest

- *Practical field method demonstration*: This will be an afternoon session and different methods theoretically taught in the morning will be demonstrated at Ololua forest.

- Ololua Nature Trail Walk and a tour of the primates holding facility at the Institute of Primate Research.

Vervet monkey behavioral data collection

Waterfall at Ololua Nature trail

Post Congress and 26th August 2018 between 0830-1630hrs

Cost: 200 USD catering for transport, Meals and drinks, facilitation and institutional overheads

Theme: Nonhuman Primate Welfare and Research

Trainers: Bruno Gooderis, Jim Else, Daniel Chai, Hastings Ozwara, Cathy Brasky, Jan Hau, Jael Obiero, Thomas DHooghe, Atunga Nyachieo, Joseph Kamau, John Cooper

Topics

1. Primate welfare and positive reinforcement
2. Enrichment
3. NHP sample collection
4. Non human primates genetics and Stem cells
5. Use of NHPs in biomedical research
6. NHP breeding
7. International accreditation of Primate facilities
8. Microbiome sampling in NHPs
9. Breakthroughs in baboon reproductive health research
10. Wound healing process in primates
11. Role of NHPs in emerging pandemics
12. Primates Zoonosis

Training Description

Each training (pre or post) will have a maximum of 40 people.

The training will be split into two session with the morning and mid-morning covering the Lecture sessions and the afternoon hours (1400-1630hrs) covering the demonstration session.

At the end of the training, those in attendance will be issued with certificates of participation.

Payments for either training should be paid directly to the Institute of Primate Research and payment voucher sent to (Lucyline Mbogori: Email: lucymbogori@gmail.com / lbogori@primateresearch.org).
